That works, I think. Sooner is better though as they're preparing the final overall report. That's not due until later in August, but I'm sure DOI is leaving lots of time for review before the deadline.

Allison,  
Thanks to your question earlier to jog my memory on this.

Attached is the Bears Ears economic report (final-interim). We had a less than a 24-hour review window in early June to review this and get back to DOI. So, I don't recall that we had shared this for review like we're doing with the other economic reports for specific monuments.

If you have any comments, we can share those with DOI since they're still working on the overall final monuments review report.

Thanks for keeping the attached close hold within BLM-UT leadership.

Sally
